

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: March 11, 1996

SUBJECT: **SB 2823 - HB 3016**

This bill, if enacted, will prohibit any state agency, county, municipality or other public subdivision from stocking rockfish, Cherokee and other hybrid thereof or alewife in any portion of Norris Lake located in Claiborne County or any of its tributaries. The Tennessee Wildlife Resources Agency is required to establish a daily creel limit of twenty (20) crappie taken per person per day from any portion of Norris Lake, located within Claiborne County.

Further, the Tennessee Wildlife Resources Agency is required to establish a no size limit or creel limit for the taking of rockfish, Cherokee bass and other hybrid thereof, or alewife taken from any portion of Claiborne County or any of its tributaries.

The fiscal impact from enactment of this bill is estimated to result in a decrease in state and federal revenue to the extent less fishing licenses are sold; however, such decrease cannot be determined but is estimated to be not significant.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
